SAFETY NOTICE

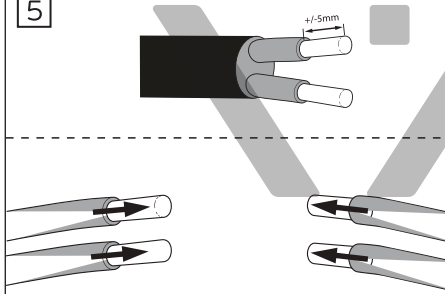

Please read these installation instructions carefully before installing the product. Installation must be performed by a qualified professional. Failure to follow these instructions may result in damage, fire, or personal injury.

1. When using this product, ensure the correct voltage is applied.
2. Use locally approved identification cables. The cable rating must exceed the product's voltage and current requirements.
3. Turn off the power before wiring or performing any operation.
4. If parts need to be replaced or repaired, use only specified parts supplied by the manufacturer. Repairs must be carried out by the supplier or a qualified professional. Improper handling may result in electric shock or other hazards.
5. Do not use chemicals or abrasive materials when cleaning. Use a soft, damp cloth only.
6. Do not clean the product with high-pressure washers.
7. Do not disassemble, damage, or modify the product.
8. When the lamp is in operation, do not use it continuously for extended periods to avoid heat damage.

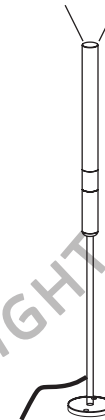

WARNING

This lamp and its power supply must not be installed on combustible surfaces or in areas containing explosive gases, flammable liquids, or dust.
